Let's Do Mathematics

Let's Do Mathematics is a series covering levels K-6 and is fully aligned to the United States Common Core State Standards (USCCSS). Each level consists of two books (Book A and Book B) and combines textbook-style presentation of concepts as well as workbook practice.

Central to the USCCSS is the promotion of problem-solving skills and reasoning. Let's Do Mathematics achieves this by teaching and presenting concepts through a problem-solving based pedagogy and using the concrete-pictorial-abstract (CPA) approach. Learners acquire knowledge and understanding of concepts through a guided progression beginning with concrete examples and experiences which then flow into pictorial representations and finally mastery at the abstract and symbolic level. This approach ensures that learners develop a fundamental understanding of concepts rather than answering questions by learned procedures and algorithms.

Key features of the series include:

Anchor Task

Open-ended activities serve as the starting point for understanding new concepts. Learners engage in activities and discussions to form concrete experiences before the concept is formalized.

Let's Learn

Concepts are presented in a clear and colorful manner. Worked problems provide learners with guided step-by-step progression through examples. Series mascots provide guidance through helpful comments and observations when new concepts are introduced.

Let's Practice

Learners demonstrate their understanding of concepts through a range of exercises and problems to be completed in a classroom environment. Questions provide a varying degree of guidance and scaffolding as learners progress to mastery of the concepts.

At Home

Further practice designed to be completed without the guidance of a teacher. Exercises and problems in this section follow on from those completed under Let's Practice.

Hands On

Learners are encouraged to 'learn by doing' through the use of group activities and the use of mathematical manipulatives.

Solve It!

Activities that require learners to apply logical reasoning and problem-solving. Problems are often posed which do not have a routine strategy for solving them. Learners are encouraged to think creatively and apply a range of problem-solving heuristics.

Looking Back

Consolidated practice where learners demonstrate their understanding on a range of concepts taught within a unit.

Let's Practice

1. Complete the addition stories.

3 children are eating lunch. 1 child joins them.

There are children in all.

4 pencils are in the box. 2 pencils are on the table.

There are pencils in all.

There are 5 players on one team. There are 5 players on the other team.

There are players in all.

4 monkeys are dancing. 5 monkeys join them.

There are monkeys in all.

At Home

1. Count and match.

2. Count and color.

Hands On

Play this game in groups of 3 or 4!

1. Spread some shapes on your table.

2. Your teacher will say a shape.

3. Find all of the shapes and make 2 groups.

4. The first group to finish is the winner!

Solve It!

Trace the squares, rectangles, triangles, and circles.

Looking Back

1. Check 2 groups of blocks to make 5.

Circle 2 shells to make 8.

Color 2 numbers to make 10.

2. Count and complete the number bond.

Contents

1	Numbers to 5	2
	Counting to 5	2
	Numbers to 5	10
	Zero	24
	Comparing Numbers	28
2	Numbers to 10	50
	Counting to 10	50
	Numbers to 10	63
	Comparing Numbers	78
	Counting On	98
3	Number Bonds	110
4	Addition	132
	Putting Together and Counting On	132
	Addition Equations	158
5	Subtraction	182
	Taking Away	182
	Subtraction Equations	200
6	Word Problems	224
	Addition and Subtraction Stories	224

1

Numbers to 5

Counting to 5

Anchor Task

Count on your fingers.

Let's Learn

1
one

2
two

3
three

4
four

5
five

Let's Practice

1. Count and match.

2. Count and match.

3. Count and color. 

				
---	--	--	--	--

--	--	--	--	--

--	--	--	--	--

--	--	--	--	--

4. Count and color. 

--	--	--	--	--

--	--	--	--	--

--	--	--	--	--

--	--	--	--	--

At Home

1. Count and match.

2. Count and color. 

--	--	--	--	--

--	--	--	--	--

--	--	--	--	--

--	--	--	--	--

--	--	--	--	--

Numbers to 5

Anchor Task

Work in pairs.

1. Place some cubes on your table.

2. Group the cubes by color.

3. Count the cubes in each group.

Let's Learn

Count to 5.

Point and count with your finger.

Let's Practice

1. The number 1.

Circle the nests with 1 egg. 

Color 1 circle. 

Trace and write the number. 

2. The number 2.

Circle the lily pads with 2 frogs. 

Color 2 circles. 

Trace and write the number. 

3. The number 3.

Circle the shelves with 3 balls. 

Color 3 circles. 

Trace and write the number. 

4. The number 4.

Circle the leaves with 4 ladybugs. 

Color 4 circles. 

Trace and write the number. 

5. The number 5.

Circle the plants with 5 flowers. 

Color 5 circles. 

Trace and write the number. 

6. Count and match.

• • 1

• • 2

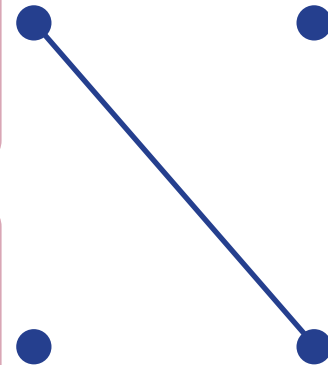

• • 3

• • 4

• • 5

Hands On

Find all the things around you that are five.

Solve It!

Circle the groups that make five. 

At Home

1. Count and write the number.

2. Count and write the number.

3. Count and write the number.

4. Count.

Zero

Anchor Task

1. Form small groups.

2. Take turns to say the number of pencils.
Then take 1 pencil.

3. Take turns until there are no pencils left.

Let's Learn

3
three

2
two

1
one

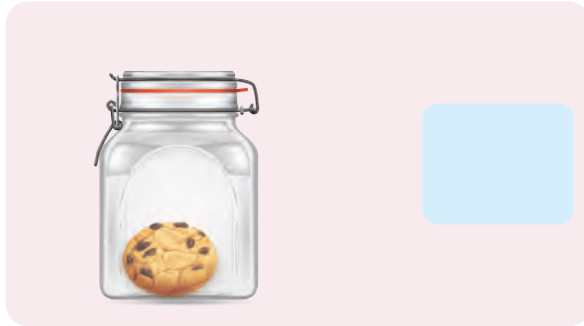

0
zero

Let's Practice

1. How many cookies?

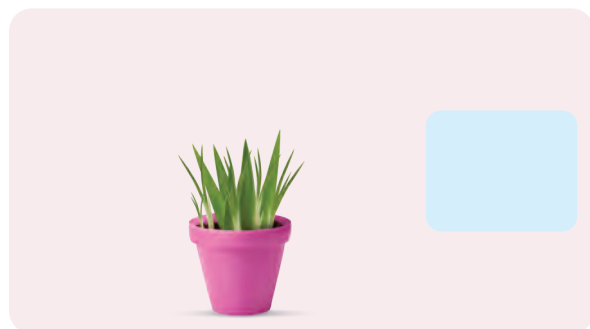

2. How many oranges?

3. How many fish?

4. How many flowers?

At Home

How many birds?

Circle the number. 

5

4

3

4

1

0

3

2

Comparing Numbers

Anchor Task

Use your finger to match frogs to lily pads.

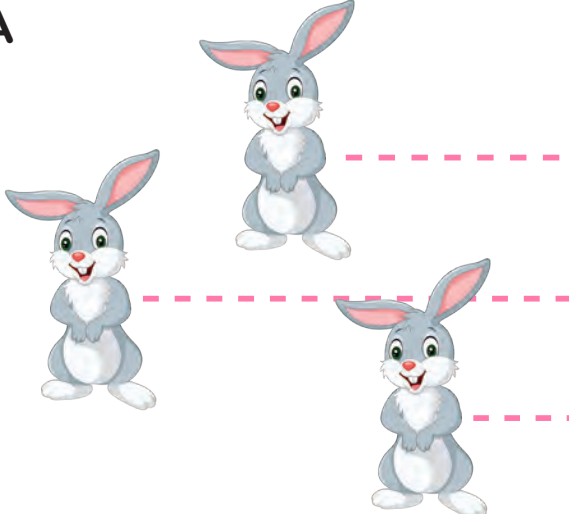

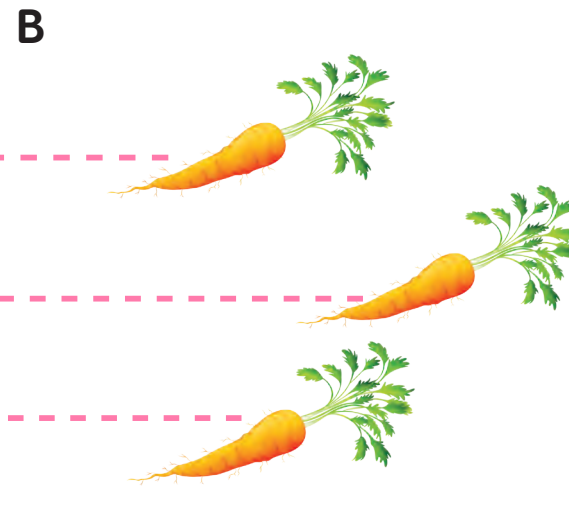

Let's Learn

Compare the sets.

A

B

Set A contains three rabbits and Set B contains three carrots. Dashed lines connect each rabbit to a corresponding carrot, showing that both sets have the same number of items.

Set A and Set B have the **same** number.

Compare the sets.

A

B

Set A contains five monkeys and Set B contains four bananas. Dashed lines connect each monkey to a banana, showing that Set A has more items than Set B.

Set A has **more**.

Compare the sets.

Set C has **fewer**.

Count the dots and compare.

Set E has 4 counters.
Set F has 2 counters.

Set E has **more**.
Set F has **fewer**.

Let's Practice

- Count and write the number.
Circle the set with **more**.
